Young PIONEERS GENERAL SCIENCE (Grades 2–3 and 4–5)

Tutor: Mrs. Johannah Murdock
706-755-5255
Johannahmurdock@gmail.com

Textbook: None required

Supplies: 1" binder

Recommended Supplemental Resources: (All required resources will be distributed by the teacher in class and no textbook is required. However, if you would like to supplement your science study for older students, the following resources are recommended):

- ***Exploring Creation with Anatomy & Physiology (Apologia's Young Explorer Series)***

Class Description/Expectations: We will be learning Human Anatomy and understanding how our body works. But remember that we humans are special creations and are more than a human body! When God made people, *He made us in His image*. God specifically chose each one of us to be born, and we were carefully put together by Him. The human body is such a marvelous and complete creation that scientists are always, even today, discovering new things about how our bodies work!

Please note: In class, we will have a lot of hands-on activities to help your child grow to love our world around us! There will be no weekly homework assigned. Please feel free to text or email me with any questions throughout the year. I'm excited to meet everyone and begin this new journey over the next school year.
